## About Us

We are M group which are three medical companies in three different African countries supported with LLC Drug Store in Dubai -UAE: **(Altiyman Medical Devices LLC)**  
Genius Medical Co., Ltd. Sudan – Khartoum.  
Societe Ritadj Commerce General et, de Medical. Tchad – Umgamana.

### II- History:

The Mother company in Sudan, established in 2004 under name of William Tel Engineering Co., Ltd and was specialized in Hemodialysis machines exclusive agent for (Gambro), Sweden.

In 2009, the name was changed to Triple M medical Technology Co., Ltd., which expanded into three specialized departments, Department of Hemodialysis, department of Anesthesia and medical consumables and department of Laboratories Closed System Equipments. In 2015, Genius Medical Co., Ltd – was merged Triple M for covering the laboratories in Sudan.

## Business Activities

Our business activities concern with covering all the medical needs & laboratory instruments, consumables, disposables, reagents, and spear parts for the instruments. In addition to all that we provide the technical support.

**i. Innovation:** Value creation through innovation and research by application of advance medical technology

**ii. Quality:** Ensure the product to achieve highest degree of excellence

**iii. Satisfaction:** Improve and make a difference to fulfill customer's requirement

Our business activities concern with covering all the medical needs & laboratory instruments, consumables, disposables, reagents, and spear parts for the instruments.

In addition to all that we provide the technical support.

#### **Medical Laboratory needs:**

It's all about medical labs equipments, instruments, disposable, ...etc. In this line we are providing the last modern technologies of high qualities such as: hormone analyzer, hematological analyzer, Chemistry Analyzers, HbA1C fully automated and all requested medical lab requirements.

#### **Company Value**

To become a leading IVD company and a total solution provider in healthcare.

# Main Services

- Research and development in adding new parameters needed for the markets
- Advices and cost efficiency studies for the costumers.
- Regular Training for the staff and costumers
- All after sales services (maintenance, application, reagents supplies and promotion for the physician and consultants to increase the lab trust ability.
- Quality control guide to achieve the QC certificates for the lab ISO, CAP ...etc.
- Quick response to any complain 7/24.

## Our Products

Also the main companies that we represent it are six companies which are share the markets as follow:

- 1 **DRG BIOCHECK (IMMUNASSAY)**  
**GERMANY**
- 2 **GESAN PRODUCTION (CLINICAL CHEMISTRY)**  
**•Veterinary - ITALY**
- 3 **DIESSE DIAGNOSTICA (IMMUNOLOGY)**  
**ITALY ( For Sudan Market )**
- 4 **CEPHEID INC (MOLECULAR)**  
**USA ( For Sudan Market )**
- 5 **WESWOX (HISTOPATHOLOGY)**  
**INDIA**

# GESAN PRODUCTION

## CHEM 200 PRO VET

The Chem 200 PRO is also available in a VET version in combination with its own dedicated and barcoded reagents. The VET analyzer provides customizable reports for each animal species, is easy to use, and allows the creation of a variety of profiles, such as generic, pre-op, post-op, liver, kidney, and metabolic. Remote diagnostic control allows service staff to resolve errors quickly and efficiently without an on-site visit.

## PICCOLO CHEM

The newest analyzer in the Gesan family of instruments could only be called "Piccolo." It's the smallest analyzer with the greatest potential in the category, ideal for daily routine and special routine. Evolution has led to an user interface with a touch screen display and the QR CODE reader integrated into the camera body, an on-site visit.

## CHEM 100 NEW

Chem 100 is a compact and easy to use semi automatic biochemistry analyzer offered by Gesan Production. The operating centre incorporates a superior, temperature-controlled optical design with the measurement taking place in a specialized flow cell. The unit is easy to operate and its maintenance requirements are low. Most technicians can learn to use this software-driven device within an hour. The maintenance instructions are incorporated into the system software. The new Chem 100 is a touch screen device.

## CHEM 400 PRO

Gesan Chem 400 PRO is designed to meet the needs of medium and large laboratories, it is a discrete, random access, fully automated clinical chemistry analyzer with large sample plate for up to 115 samples on board, two refrigerated reagent dishes of 90 positions each to meet all laboratory needs. Precise and reliable optical measuring system, real-time system monitoring, perfect cleaning system that prevents contamination completely make it the perfect and reliable ally for working in extreme quality.

# BIOCHECK - DRG INSTRUMENTS

## DRG:HYBRID-XL®

Fully automated Random Access Analyzer for Immunoassays and Clinical Chemistry  
The DRG:HYBRID-XL® Analyzer offers the unique possibility to simultaneously perform immunoassays and clinical chemistry parameters including turbidimetric tests from one patient sample in a very flexible and easy way.

## DxDATA™

Automated Chemiluminescent Immunoassay Analyzing System

### Features

**Principle:** Magnetic particle chemiluminescent immunoassay method

**Convenient:** Single cartridge, calibrators & controls included in kit, low maintenance, no liquid path, easy to operate, small footprint

## BioCheck DxDATA™ Nano

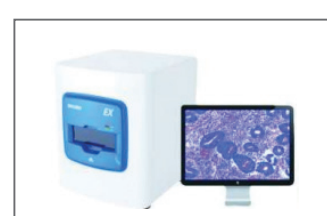

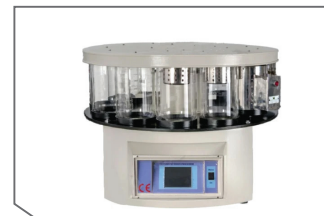

- **Automated Chemiluminescence Immunoassay Analyzer**
- **Point-of-care analyzer exceeding laboratory quality standards**

# WESWOX HISTOPATHOLOGY & LAB DEVICES

## FLUORESENT MICROSCOPE

- Wide-field eyepiece, high light illumination and superior optical parts make the image clear, sharp & bright.
- Backward nosepiece with superior objectives make the best viewing effect and more space for the operation.
- High Precision focussing adjustment system and humanised configuration design provides operator more comfort.

## Our Products

### Consultancy, spare part supply & support

our strength in our well trained and experienced staff:

THE BEST OF THEM:

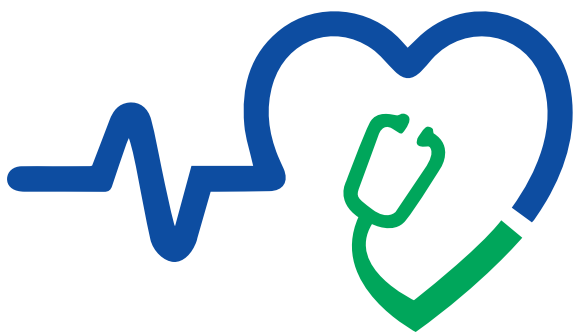

- Six Sales employees.
- Five services Biomedical Engineers.

We offering training for our clients staff in the country of origin, or at regional office in UAE- Dubai. Cause it is the good for the technician and biomedical engineer to knew the operation and preventive maintenance for the analyzer is a most important for the good result and long life span for the instruments.

### Reagents and spar part supply:

The insurance for the reagents supply is the most important that we guarantee the contentious running of your samples as well as spar parts for two years are free and then by the separate reasonable and acceptable prices that protect you to Bid for spar part that may cost you.
